The Deputy Director of Central Intelligence

Washington, D.C. 20505

82-3473

March 26, 1982

Dr. Norman Augustine, Chairman
Defense Science Board
Room 3D1034
The Pentagon
Washington, DC 20301

Dear Dr. Augustine:

Continuing development of new space systems and technologies has led
me to believe that the organizations which have a major interest in the
future of foreign or domestic space activities would profit from a
stimulating interchange of information and ideas. As a step in that
direction, Dr. Richard DeLauer, Dr. Hans Mark, Dr. George A. Keyworth
and I are sponsoring a colloquium to discuss possible military,
intelligence, and civil missions in space during the next 20 years by
examining new systems concepts and technologies.   25X1

The other sponsors and I believe that your participation could make
a very valuable contribution to the colloquium, and we invite you to be
moderator of the session on Future Military Missions in Space. We also
invite you to participate in the general discussion throughout the
colloquium. Only a few persons are being invited to present papers and
each will be asked to speak for about an hour so that ample time can be
allotted for discussion.   25X1

The colloquium will be held on 3 and 4 June 1982 at CIA Headquarters.
Participants will be limited to 50 of the most knowledgeable persons
involved in future space systems and technologies including those who will
present papers.   25X1
classification.   25X1

We encourage you to accept our invitation to this important colloquium
on the future in space. We will provide complete details about arrangements
at a later date.   25X1

Distribution:
     Original - Addressee
            1 - DDCI
            1 - ER
            1 - DDI
            1 - ADDI
